PE:

In PE we will be focusing on different skills through various team games. We will be focusing on running, catching, throwing, aiming and jumping.

Design and Technology.

This term we will be designing and making our own Kites. We will be looking at the history of kites and the different patterns that kites have. We will use our creative skills to make our own design which we will then transfer to a finishing product.

Science:

This half term we will be exploring everyday materials. We will be conducting experiment's and identifying and comparing a variety of materials. The children will explore the properties of wood, plastic, metal, glass and fabric, and start to explore the uses of everyday materials.

RE:

This half term we will be looking at the life of Jesus and how different events in his life impacted him and the people around him. We will be focusing on The Rosary and how this is important within Catholic life. We will then move onto Advent and learn what this and why it is important to the run up to Christmas. **Catholic Schools Pupil Profile Intentional: planning our actions and choosing to live how God wants us to.**

Prophetic: spreading the word of God through how we live our lives.

Reading: This term we are reading The Diary of the Killer Cat by Anne Fine. We will be focusing on our retrieval skills and looking at how to highlight key information to answer questions. We will also be looking at how to infer how different characters are feeling based on what we have read.

Writing— We will be looking at Diary entries and how they are set out. We will be linking this in with our class book and looking at what different characters would write into their diary. We are focusing on past tense, nouns and adjectives.

Maths:

This half term we will be looking at addition and subtraction. We will focus on how to represent different number sentences. As well as this, we will be solving problems using addition and subtraction skills. We will begin to count in 2's, 5's and 10's, and use this understanding to solve problems involving commutativity as necessary. We will also recall all of our bonds to 10 and use them to reason number bonds to and within 20. The children will also begin to identify fractions of shapes by understanding that all parts must be equal parts of the whole.

Computing:
In Computing we will be looking at how to code and control our sprites. We will be using purple mash and we are going to learn to move them from one side of the screen to the other. We will also focus on how to stay safe online.

History— Communication

This half term we are focusing on how communication has evolved. We will look at the earliest writing systems and how different technologies have helped us to get to where we are today.

Music: This term we have the music teacher coming into school once a week. She teaches the Ocarina, rhythm, beat and dynamics.
